

Former Mayor Explains Government to PV Second Grade

Mr. Kent Moore, former mayor of Dublin, visited second grade to help the students better understand the levels of government and the responsibilities of the elected officials. Various students were selected to represent the president, the governor, the mayor, and their supporting groups. We learned that those in charge (like the mayor) can't make a law without the majority of the

council agreeing with it. We also learned that a mayor has the power

to marry someone, oversees emergencies in the town, and has a heart to serve the community. We thank Mr. Moore for

taking time out of his busy workday to share with us in order to enrich our social studies unit on government.
