

Third Grade Service Projects

The third graders at Peace Valley are studying communities, focusing on the needs of each community. To show their understanding of the needs of a community, each child created a community and drew a map to demonstrate that the basic needs of the community were met. As part of understanding community needs, and how they can be a part of helping to meet those needs, the third grade participates in two fall service projects. At Thanksgiving the class made meals for PCS families that needed encouragement. Currently they are collecting laundry detergent, antiperspirant, and men's socks for the Whosoever Gospel Mission.
